The GUARANTEE that covers the PAINT that covers the SURFACE

THERE are plenty of reasons why you should use B-H Paint—but the one outstanding reason is told in the B-H Guarantee.

This is not like ordinary guarantees—it is a very definite and far-reaching one. It is a "hard and fast" commitment on the part of the well-known manufacturers of this product; by it they bind themselves to the use of a pure white lead and pure zinc in correct proportions.

It is these important basic ingredients that give to B-H Paint its remarkable covering capacity. These ingredients in proper proportion—when mixed with pure refined linseed oil and turpentine—ensure that your house will be properly painted with a smaller quantity of B-H Paint than you would have to use if you contented yourself with a paint of lesser quality. Do not, then, permit your desire to be economical to lead you on the "false economy trail" of cheap paints. That way lies extravagance. Only by using a high-quality paint, such as the B-H guarantee ensures, can you be certain of real economy which comes from the use of a paint that covers well and lasts wonderfully.

GRASSY LAKE

Mr. and Mrs. Chryst are here from California visiting their father and brother here.

Mr. Peverille and his son are renewing old friendships, and have opened up the Farmers Elevator.

Mr. White of the Union Bank was down visiting at Medicine Hat recently.

Mr. Halsbeck was a business visitor in Town recently.

Mrs. S. Harper of Medicine Hat was visiting her nephew Mr. Legwood.

Mr. Watson has left for Lethbridge on a business trip enroute to Cochrane on a visit to his friends.

Tom Chryst left for Spokane on Thursday September 11th. on a business trip.

PLEASANT VIEW

From our own Correspondent
M. Dregi was a business visitor in the vicinity on Wednesday.

R. J. McKnight of Redcliff called on relatives here last week.

Mrs. Chas. Hickery and daughter Miss Margaret left last week for their home in Detroit, Minn. after spending a very pleasant month at the home of Mr. and Mrs. P. O'Neill. They will be accompanied home by Miss. Nana O'Neill who plans on finishing her high school course in that place.

Mrs. A. Geldrich was a business visitor in Medicine Hat last week end.

Mrs. H. Spang of the Sampson district visited with her son John and wife in this district one day last week.

Mrs. O. Deane, son Earl and little daughter Cathryn, are making Mrs. Deane's parents, Mr. and Mrs. O'Neill an extended visit.

It is rumored that Miss. Amy Hilde of the Lancaster school district has again hurt her shoulder making it necessary for her to return to the hospital in Medicine Hat. Miss. Hilde was thrown from a horse some few weeks ago. Her many friends wish her a speedy recovery.

Some people might have the idea that a car especially a Ford can run many miles on its reputation, but anyone that was lucky enough to be near the Elmer Solberg farm on Tuesday would quickly decide in the negative if they had got a glimpse at Otto Solberg trying every means imaginable to get his car to ramble right along. Otto says none but a skilled mechanic need apply.

Indian Mutiny Hero Major General John Rungles who fought in the great Indian Mutiny has recently died at Swansage England in his 88th year.

McClary's Kootenay

TOP, bottom and all four sides of the Kootenay oven are evenly heated. That is why it is so famous as a dependable baker. There is a thermometer, too, to tell whether the heat is right or not.

No range is quite so easily managed. Duplex grates clear the sides at a single touch. Burnished cooking top never needs blacking. Nickel-plated steel oven walls are kept clean with a damp cloth. Well-fitted joints and dampers hold the fire—and the oven heat—for hours.

Let us show you the Kootenay.

POLICE NEWS

On Thursday the 11th, inst. Nels Hawkison appeared before Mr. Lamash J.P. charged with being intoxicated beyond sight in a public place, after hearing the evidence, His Worship gave the accused the benefit of the doubt and dismissed the case.

James Franks appeared at Grassy Lake at 2 p.m. before Mr. Johnston J.P. under the Masters and Servants Act for refusing to pay DuMitt King wages \$12.40 due for work building two fences in rear of Franks premises at Grassy Lake. King claimed the above sum for 29 and 34 hours work after hearing statement of complainant and defendant. His Worship appointed Constable Bradner and Mr. Scott to examine the work done by King. Court was adjourned for 29 minutes after the justice heard the evidence of Bradner and Scott as to work done by King. His Worship ordered the defendant Franks to pay the sum of \$10.00 and costs of the court, \$10.00 being the amount stated by Bradner and Scott was a reasonable price for the work, Franks wanted to settle with King for 4.00. The defendant paid the \$10.00 and costs.

James Franks appeared at Grassy Lake before G. H. Johnston J.P. at 3.30 p.m. charged with being intoxicated beyond sight in a public place, after hearing the evidence of King and two witnesses, His Lordship found Franks guilty and fined him \$10.00 and costs. Franks did 30 days hard labour, and also put Franks under bonds in the sum of \$20.00 to be of good behaviour and keep the Peace for one year.

Good Roads In The West

The article appearing in this column last week dealing with the influence and effect of good all-weather roads upon school attendance, better schools and the development of rural high schools, concluded with a reference to the Province of Quebec which is doing in good roads building and the markedly beneficial effect it is having on agriculture, industry and education in that Province, and how enthusiastically the people there are in support of a continuance of a policy which is creating such an improvement in the life and prosperity of the Province.

What is being accomplished in Quebec is not only of direct benefit to that Province, but indirectly it benefits Canada as a whole, although, it must be admitted, the effort will not be very noticeable in these Western Provinces except that, insofar as Quebec advances, the whole Dominion is advanced and benefited by what has been regarded as our most backward Province coming in line with the other Provinces. The good roads program of Quebec is a sign of an awakened Province, and those roads will prove a most influential factor in making the Province still more progressive.

The question is: Are the other Provinces of Canada, and more particularly these Western Provinces, going to emulate Quebec's example in respect to good roads construction? It can hardly be doubted but that they will, and the question then arises, how soon are they going to begin to create a system of hard-surfaced main highways? The further question presents itself, is to present an opportune time for the inauguration of such a policy?

We submit that now is the accepted time, and we propose to give a few reasons for that belief. The Dominion Government has recently provided a vote of \$20,000,000 to be paid to the Provinces on a population basis, covering a period of five years, to be expended in highway construction. By the terms of the grant the Provinces are required to spend an even larger sum in order to become entitled to the Dominion grant. That is to say, for every \$100,000 supplied by the Dominion, the Provinces must put up \$150,000. As the Dominion agrees to furnish \$20,000,000 within the next five years, it means that the Provinces will have to furnish \$30,000,000, thus providing a grand total of \$50,000,000, or \$10,000,000 a year to be spent on highway construction in Canada. Surely, therefore, now is the time shore all others to embark on a program of construction of permanent roads, and not merely makeshift dirt roads.

Of this \$20,000,000 of Dominion money, the three Prairie Provinces will receive the following amounts: Alberta, \$14,750,000; Manitoba, \$1,600,000; Saskatchewan, \$3,650,000, a total of \$19,950,000.

for the three Provinces of \$4,886,000—say, in round figures, \$5,000,000. The Provinces will be required to match an additional \$2,500,000, thus providing an annual sum of \$2,500,000 for the next five years. If this money is wisely expended on permanent roads, Western Canada at the end of the five-year period will have something to show in good roads, and we are sure to profit thereby, the advantages resulting from such highways will lead the people to insist that the good work be continued.

The next question that will present itself is: Can these Western Provinces finance their proportion of this program, and at the same time continue to spend the large sums necessary in these new Provinces on what are pioneer roads and which must be built to enable farmers in remote districts to get to market. Let us take Saskatchewan as an example, and what is true of it is proportionately true of Manitoba and Alberta.

In this present year of 1919 Saskatchewan will derive a revenue from the Dominion of upwards of \$800,000. Saskatchewan's annual grant from the Dominion under the proposed new highways scheme will be \$361,200 a year, which will call for a further provincial expenditure of \$438,800. Saskatchewan can find this \$800,000 in the form of revenue from its famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—yes, whom will call for to avoid an operation should give it a fair trial before submitting to such a surgical procedure.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass. for advice. The result of many years experience is at your service.

Furthermore, if our Western Provincial Governments take over all the building and the maintenance of certain roads in municipalities, and thus relieve the cities of the expense of such construction, the municipalities themselves affected thereby could, in turn, well afford to contribute a small amount of a few hundred dollars they may now receive from the Province. For every dollar they thus relinquish they would receive several dollars back in the form of permanently constructed and maintained main roads.

The greatest number of automobile owners in these Western Provinces are farmers. Hard-surfaced roads will extend the period of time in the year that motor cars can be used, and will reduce the wear and tear on the same, thus increasing their value to the farmer. Their greater value and ability will lead to a further increase in the number of cars used, and, consequently, provide a still larger license revenue from which a consistent and ever larger program of good roads construction can be carried on.

The moral of the situation would seem to be that every Western farmer should become a good road builder, and should bring to possible legitimate pressure to bear on the Provincial Government to embark upon a well-planned, progressive policy for the construction of permanent hard-surfaced main roads.

Favor Holland as Place of Residence.—A German—Friedrich von Celler, of Germany, with her two sons has left for Amsterdam, Holland, on her way back to Germany. She travelled on an ordinary passenger liner. The possibility of the entire former royal family of Germany making their home in Holland was discussed at conferences taken part in by Celler and the former emperor and empress at the Von Bessingen castle during her visit here, it is understood. No thing definite, however, was decided upon.

Some Joy. Corporal: What's the matter? You look more scared than when you were fighting on the Hindenburg line. Private: I'm getting ready to go inside to ask the boss for my old job back—London Express.

Addition to self and subtraction from others compromise some men's sole knowledge of arithmetic.

HOW MRS. BOYD AVOIDED OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try this famous root and herb remedy. I followed her advice, and to my surprise, the trouble disappeared. I am now well and happy. The result of many years experience is at your service."

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—yes, whom will call for to avoid an operation should give it a fair trial before submitting to such a surgical procedure.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass. for advice. The result of many years experience is at your service.

British League Will Not Perish

Melbourne, Australia.—Premier Hughes, in a speech, said Australia must have a government that had a clear and direct mandate from the people. Referring to the Imperial political outlook, he declared that whatever the result of the other league of nations, the league of the British Empire would never perish.

PAINFUL RHEUMATISM

May Be Driven Out of the System By Enriching the Blood

In the days of our fathers and grandfathers rheumatism was not to be the unavoidable penalty of middle life and old age. Almost every elderly person has heard of some one who, after a long life of health, was afflicted with the trouble. It did not know that it was in the blood, and that the blood was the cause of it. There are many elderly people who have been cured of rheumatism by a simple treatment which enriches the blood, and it is treated with liniments and rub applications, which sometimes gave temporary relief, but did not cure the trouble. In those days there were thousands of rheumatic cripples. Now, medical science understands that rheumatism is a disease of the blood, and that with good food by killing the poison in the blood which causes it, there are many elderly people who have been cured of rheumatism, and many who have conquered it by simple treatment of their blood rich and pure. The blood making, blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and are, in fact, the only pills that have killed the blood poison which has robbed rheumatism of its terrors. At the first sign of poor blood, which is shown by dry, itchy, peeling, papules, dandruff, and dim eyes, protect yourself by taking Dr. Williams' Pink Pills. They will give you a fair trial that will be disproof of any other.

You can get these pills through any druggist, or by mail, in a box, or six boxes for \$2.50, from Dr. Williams' Medicine Co., Brockville, Ont.

Bomb Thrown at Egypt's Premier.—A bomb was thrown at Hussein Rusdi Pasha, Premier of Egypt, at Alexandria, according to an Alexandria dispatch just received here. The bomb was hurled in a basket of grapes, but did not injure the Premier. The assassin of Hussein Pasha was a theological student.

Wise women who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Must Stand Trial. Wm. Hohenzollern Must Answer For Supreme Offense Against International Morality.

Paris.—Premier Lloyd George is determined to have it settled that the peace conference demand from Holland the handing over of former Emperor William, according to Le Journal. The newspaper asserts that the Premier will insist on having such action decided upon.

The peace treaty with Germany arraigns William Hohenzollern, the former German emperor, for a supreme offense against international morality and the sanctity of treaties, and provides for a special tribunal to try him. The clause of the treaty dealing with this question closes with this sentence, "the allied and associated powers will address a request to the government of the Netherlands for the surrender to them of the ex-emperor in order that he may be put on trial."

The Brave Pigeons Of The War

Old War-Worn Birds Have Been Pensioned Off By Government

Feathered "Veterans" of H.M. Pigeon Services are being "demobilized," and it has been decided to present them to discharged soldiers. Practically all the pigeons used by the army, navy and air force during the war, numbering 80,000, were presented gratuitously by breeders, in return for which the latter were given free supplies of grain to assist in rearing fresh "recruits."

In few cases old war-worn birds have been pensioned off by the Government, and are now living in peace and plenty. One of these is the pigeon which was shot through the eye while delivering a message. It recovered from the wound, and is now at Weigate, "on light duty."

"The number of lives saved by pigeons during the war will never be known," said an officer, "for, in addition to the many pilots and observers who have been rescued from wrecked machines, as a result of messages faithfully delivered, the birds have been used to establish communication with troops who were surrounded by the enemy by dropping the birds from balloons in baskets attached to parachutes."

Britain's Wheat Purchase

Retained Financial Strain on Australian Wheat Board

Sydney, New South Wales.—Britain's purchase of 1,000,000 tons of Australian wheat at 5s 6d a bushel (a bushel has been reduced to 4s 6d) has greatly relieved the financial strain on the Australian Wheat Board. Wheat growers are hopeful that the British Government will exercise its option to purchase another 300,000 tons before the end of the year.

This huge sale to the Imperial Government will not prejudice Australia's markets in South Africa, New Zealand and the west coast of South America, as provision is made in the contract for the retention of these markets. The options held by Britain are solely to be used in the event of the new wheat season in Australia not yielding a sufficient surplus to supply adjacent markets. Probably Britain will continue to take a portion of the wheat in the form of flour, thus giving employment to Australian workmen and Australian mills.

When Holloway's Corn Cure is applied to a corn or wart it kills the root and the callus comes out without injury to the flesh.

"How is your cold, Donald?" "Oh, very obstinate." "And how's the wife?" "About the same."

Saskatoon to Winnipeg by Plane

Winnipeg.—Making their airplane flight from Saskatoon in a little more than four hours, actual flying time, Lieuts. H. Robb and A. H. Rose arrived in Winnipeg. Stops were made at Humboldt, Kansas and Des Moines, Iowa. Lieut. Robb has announced that a non-stop flight from Winnipeg to Saskatoon will be made in a few days. A steady work of weather conditions are favorable. An auxiliary gasoline tank with a capacity of 30 gallons will be used.

Are Hard Times Coming?

Yes, for the man that wears tight boots, but his corns are relieved quickly by Putnam's Corn Extractor. It is a pain, and certain cure. That's Putnam's. Use no other, 25c, at all druggists.

Completing Pulp Mills

In Two Months Operation Will Probably Be Inaugurated

Victoria, B.C.—The large pulp mills which are being erected at Beaver Cove, up the coast, are fast nearing completion. In two months operation will probably be inaugurated with a product of fifty tons of paper a day. A large number of returned soldiers have been given employment at the plant. A steady hauling the timber will be constructed and work has been started on the town-site. Manager White expects that the new industrial centre will have a population within three years and in time emulate such paper towns as Swanton Bay, Ocean Falls and Powell River. There is a steady market for paper on the Pacific, the United States, Australia, New Zealand and Japan being regular buyers.

Liberal. "Was the prima donna generous with her vilify?" "Oh, yes, she gave us a great many runs for our money."—Baltimore American.

W. N. U. 1282

HAT is Dr. Webster's definition. Many of us know the word only in its war-time application.

Webster defines it as the usage of the word "morale" as applied to the common-sense happening of everyday life. His definition is a reference to an army comes later. And Webster is correct—metaculously so.

It was their private-life morale that made such splendid soldiers of our boys when the time came for them to do the bloody. It was that, and that alone, that made them take the first day, and it was that which carried them through to victory. If their everyday morale had been neglected, the Army could have done little with them and success would not have crowned their efforts.

It is the many little incidents of your daily routine that make up your morale—the morning shower, your clean linen, polished shoes, brushed clothes. Webster speaks of zeal, spirit, hope and confidence. It is by attention to the small details of your personal appearance that these may be attained.

The Gillette Safety Razor enters as much into the morale of every day as it did into that of the trenches. It makes the soldier to maintain their confidence and bearing, it will do the same for you. The Gillette Safety Razor makes the man who wears it more confident, is no pulling or scraping—no honing, or stropping—five minutes of perfect shaving comfort. And, afterwards, a chin that tells of morale and self-respect.

Sold at most stores catering to men's needs.

Thanksgiving Day Oct. 13

Ottawa—Mr. Pellow asked in the House if it was correct that the Government had fixed October 13 as Thanksgiving Day, and if so, if this was to be interpreted as an announcement of Government opposition to the bill to make Armistice Day, the second day in November, a permanent thanksgiving day.

Hon. Mr. Doherty replied that Thanksgiving Day had been fixed for Monday, October 13, but it did not necessarily follow that Thanksgiving Day would be on the same date next year. Future policy would have to be decided later.

A Powerful Medicine.—The Healing properties in six essential oils are concentrated in every bottle of Sir Thomas's Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Thousands can testify as to its power in playing pain, and many thousands more can testify that they owe their health to it. Its wonderful power is not expressed by its cheapness.

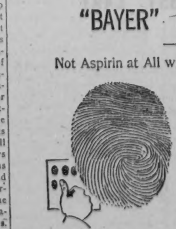

Down deep in the heart of every man's nature there is a longing to have some woman very close to him.

Minard's Liniment Relieves Neuralgia.

Sir George Perley Ready to Retire.—Sir George Perley, high commissioner for Canada, who has been home on a three-month leave, is returning to London early in October, but he has made it clear that it is not his intention to accept the position permanently. He will retire when a successor can be selected.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" is the thumb-print of genuine Aspirin. It positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and used in Canada. Large Bayer packages always buy over unbroken packages a few cents. Large Bayer packages. There is only one Aspirin—Bayer's. You must say "Bayer's" Aspirin in the trade mark registered in Canada and other countries of non-medicinalists of highland. While it is well known that Aspirin means Bayer, it is not known that Bayer means Aspirin. To save the public from being misled, the Bayer Cross will be stamped with their general trade mark, the "Bayer Cross."

Prohibition Helps Boston To Save

Save About \$100,000 This Year In Cost of House of Correction

Boston.—Boston has saved about \$100,000 this year in the cost of the House of Correction on Deer Island, as a result of prohibition, it is announced. Already \$25,000 of the appropriation intended for the institution this year has been turned back.

Since July 1 the population of the institution has declined rapidly. In 1915, the population of inmates was about 1,100. There are now only 300. One of the prison buildings will be abandoned this winter, and this step will mean a large saving in cost. Although employees have generally received increases in pay since 1915, it is estimated that the cost of Deer Island, as against \$305,679.78 in 1915.

MALEB

Mr. G. M. Wright, who recently arrived in this district, is a veteran of the Second Canadian Contingent and the holder of the Distinguished Conduct Medal and the French Croix de Guerre. He enlisted and went overseas with the 28th Battalion, C. E. F., from Belleville, Ont., reaching England in June 1915, where he was transferred to the 20th Battalion, a Toronto unit with which he went to France, landing on New Year's day, 1916.

After six months in the line Pte. Wright made one of a bombing party of sixteen on the night of June 27th, as the party approached the enemy lines, they were sighted and the Germans opened fire with machine guns and bombs, of the 16 in the party

seven were wounded and three were killed, Pte. Wright and Lieut. (acting Capt.) D. M. Anderson of Toronto, the commander of the raiding party took shelter in a shell hole about ten yards from the German trenches, where they were subjected to a terrific bombardment. Both were wounded, the officer receiving a severe wound in the stomach, and having his leg broken, while Pte. Wright was wounded in the right leg and foot, disregarding his wounds Pte. Wright took his officer on his back, crept to another shell hole, and from there rushed for blown lines, he was nearly across when a rifle grenade inflicted four more wounds on him, so weakened was he from loss of blood, he was forced to leave Lieut. Anderson in the shell hole, and creep to the British lines.
